Bulletin Number	DD00003/1	Date:	5/07/2015
Bulletin For:	Rodent and bird proof sponge cover kit		
Taege Machinery Application	All Taege 23 and 29 drop hoppers with fold away collector trays		
Description	A two piece sponge cover system (per bin) to protect the Taege Drill sponges from rodents and birds. There is now no need to empty the seed out overnight and remove the sponge bars.		
Part Numbers:		Price * (See footnote)	
DD4032.000 3.0m			
DD4032.100 3.60m			

### FITTING INSTRUCTIONS & IMAGES

Simply by sliding back the upper collector tray to the calibration position, lifting the covers up into position, pushing in the attached slide plates, and job done... the sponges are fully protected .  
We are currently working on mounting plates on the drill for storage.
